The Echo Pellet Heater

Electronic Ignition (E.I.)

The Echo pellet heater is Thelin Companies' latest addition to our pellet product line. The Echo comes with an electronic ignition*; battery back up technology, an ash pan and is capable of utilizing a remote or wall thermostat pre-set temperature and time control.

Available in six porcelain enamel colors; red, blue, green, black, brown, cream and also basic charcoal or metallic black paint. The Echo can be ordered to fit any decor utilizing any of our 12 custom paint colors.

The push button control allows the user to start and stop the Echo with the simple push of a button and if the thermostat option is utilized the operation can be hands free. Simple maintenance can be accomplished in minutes and should be done once a week.

*The Echo must be lit manually during power failure and then, depending upon the size of the battery, the Echo will run for a few hours or several days.

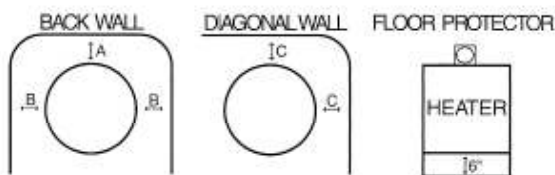

Specifications

Height.	29"
Width.	26"
Depth.	26"
Weight.	245 lbs.
Door Opening.	14" x 13"
Hopper Capacity.	50 lbs.
Foot Print.	16" x 26"

Performance

Feed Rate (low).	1.5 lbs. per hr.
Feed Rate (high).	3 - 4 lbs. per hr.
Heat Transfer	Efficiency 74%
Heating Capacity.	1200 - 1800 sq. ft.*
Power Consumption	28 watts

* Heating Capacity depends upon environment, insulation and quality of fuel which may vary from region to region in U.S.

Clearances

- A. Unit to Back wall. ...3"
- B. Unit to Side wall. ...5"
- C. Unit to Diagonal Wall (corner).3.5"
